C9

“User-friendly calibration unit for quick and easy calibration of leak test instruments”

Nolek C9

Nolek offers user-friendly calibration units for quick and easy calibration of leak test instruments. Today, our calibration product range consists of the newly developed Nolek C9 instrument, which can be used on all types of leak test instruments.

There are two different models of the C9:
C9 L (Measurement range 4 to 500mm³/s) or
C9 H (Measurement range 100 to 9999mm³/s).

Specifications

Pressure range	0 to 100 kPa
Reaction Time	20 ms
Measure range C9 L version	4 to 500 mm ³ /s 0,25 to 30 cm ³ /min
Measure range C9 H version	100 to 9999 mm ³ /s 6 to 600 cm ³ /min
Measure tolerance:	< ± 0.15% FS + ±1% RD
Dimensions H x W x D	170 x 80 x 35 mm
Weight	390 gram
Power Source	Battery (2xAA)
Standard included:	Protective case, Nolek instrument calibration tubes, operators manual & calibration certificate.
